

## **SEMINAR REPORT**

### **DEPARTMENT OF PHILOSOPHY**

The annual seminar of the department of philosophy, was held on 12<sup>th</sup> January in the Conference hall of the college. Dr Aditya Kumar Mohanty, Retd. Professor of the dept. of philosophy, utkal University, Vanivihar, was invited to deliver a talk on "Global value Crisis". Prof. (Mrs) Snigdha Mishra, principal of the college chaired the august session of the seminar and had the profound privilege to welcome the guest. At the outset Dr. Niranjana Mohanty HOD, dept. of philosophy, Christ College Cuttack, gave an elaborate introduction of the guest. Dr. A.K. Mohanty gave an elaborate introduction of the guest. Dr. A.K. Mohanty emphasized on Human intelligence that given birth to scientific and technological invention. But the scientific and technological invention. But the paradox is that the same technology is destroying our planet. The invention of nuclear energy helps the human civilization immensely. But the same nuclear energy becomes a threat for human civilization. So a need arises to develop the human intelligence for proper utilization of the technological invention.
